Council

Managing  
multi-  
morbidity

Primary  
care teams

# Availability of training

# Objectives

This study explores what general practitioners in Ireland believe should be taught and learned in relation to leadership in primary care.

Introduction

Methodology

Results

# Research design-Mixed methods

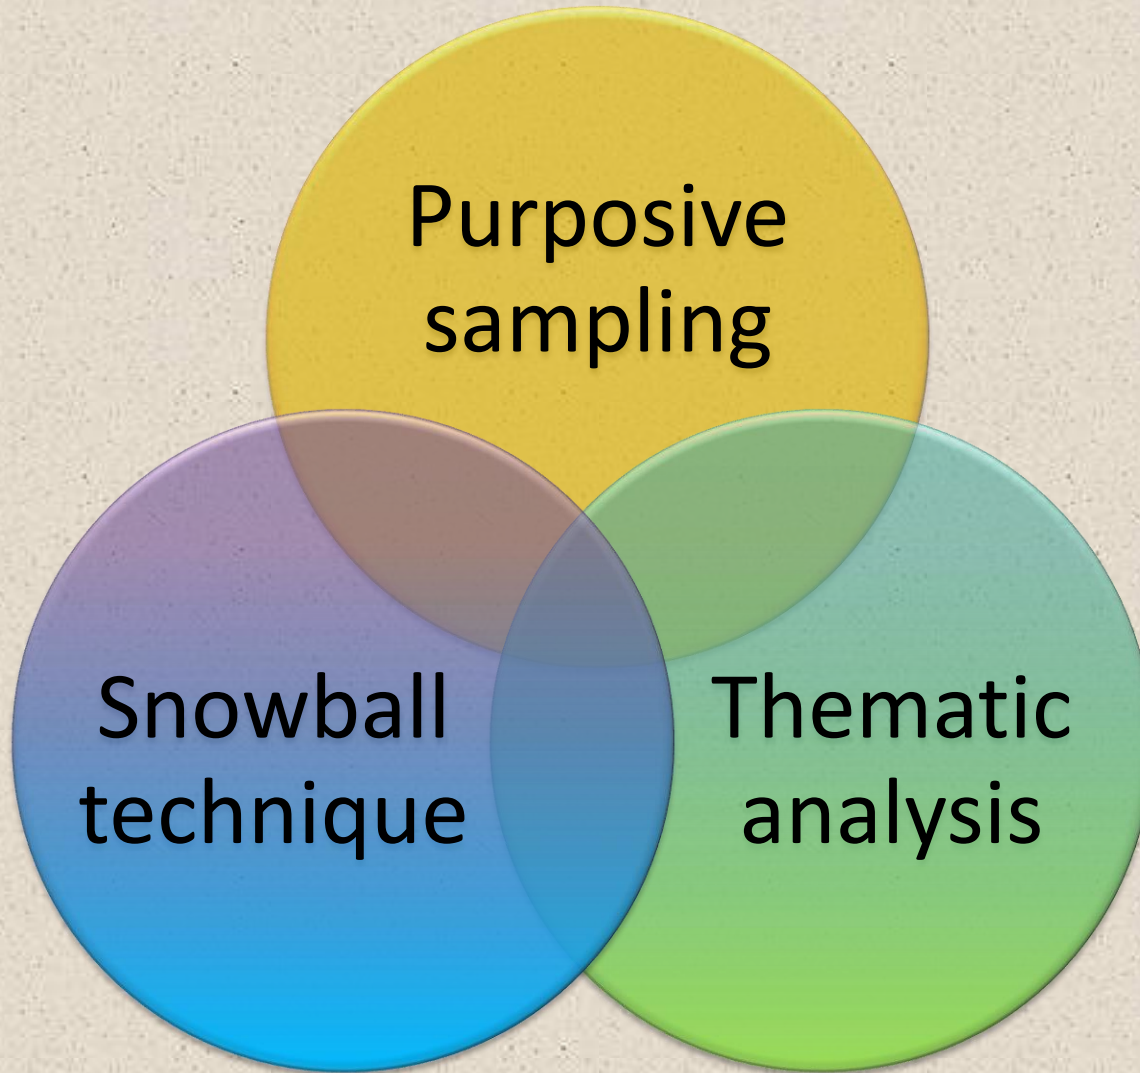

# Quantitative - Questionnaire

# Qualitative - Interview

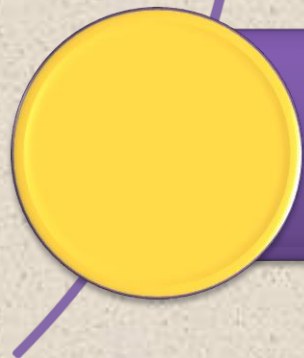

Introduction

Methodology

Results

# Results- Questionnaire

## Importance:

Acting appropriately when professional standards are compromised

Participating in continuing professional development

Coping effectively with pressure

## Development Need:

Initiating change to ensure optimal care

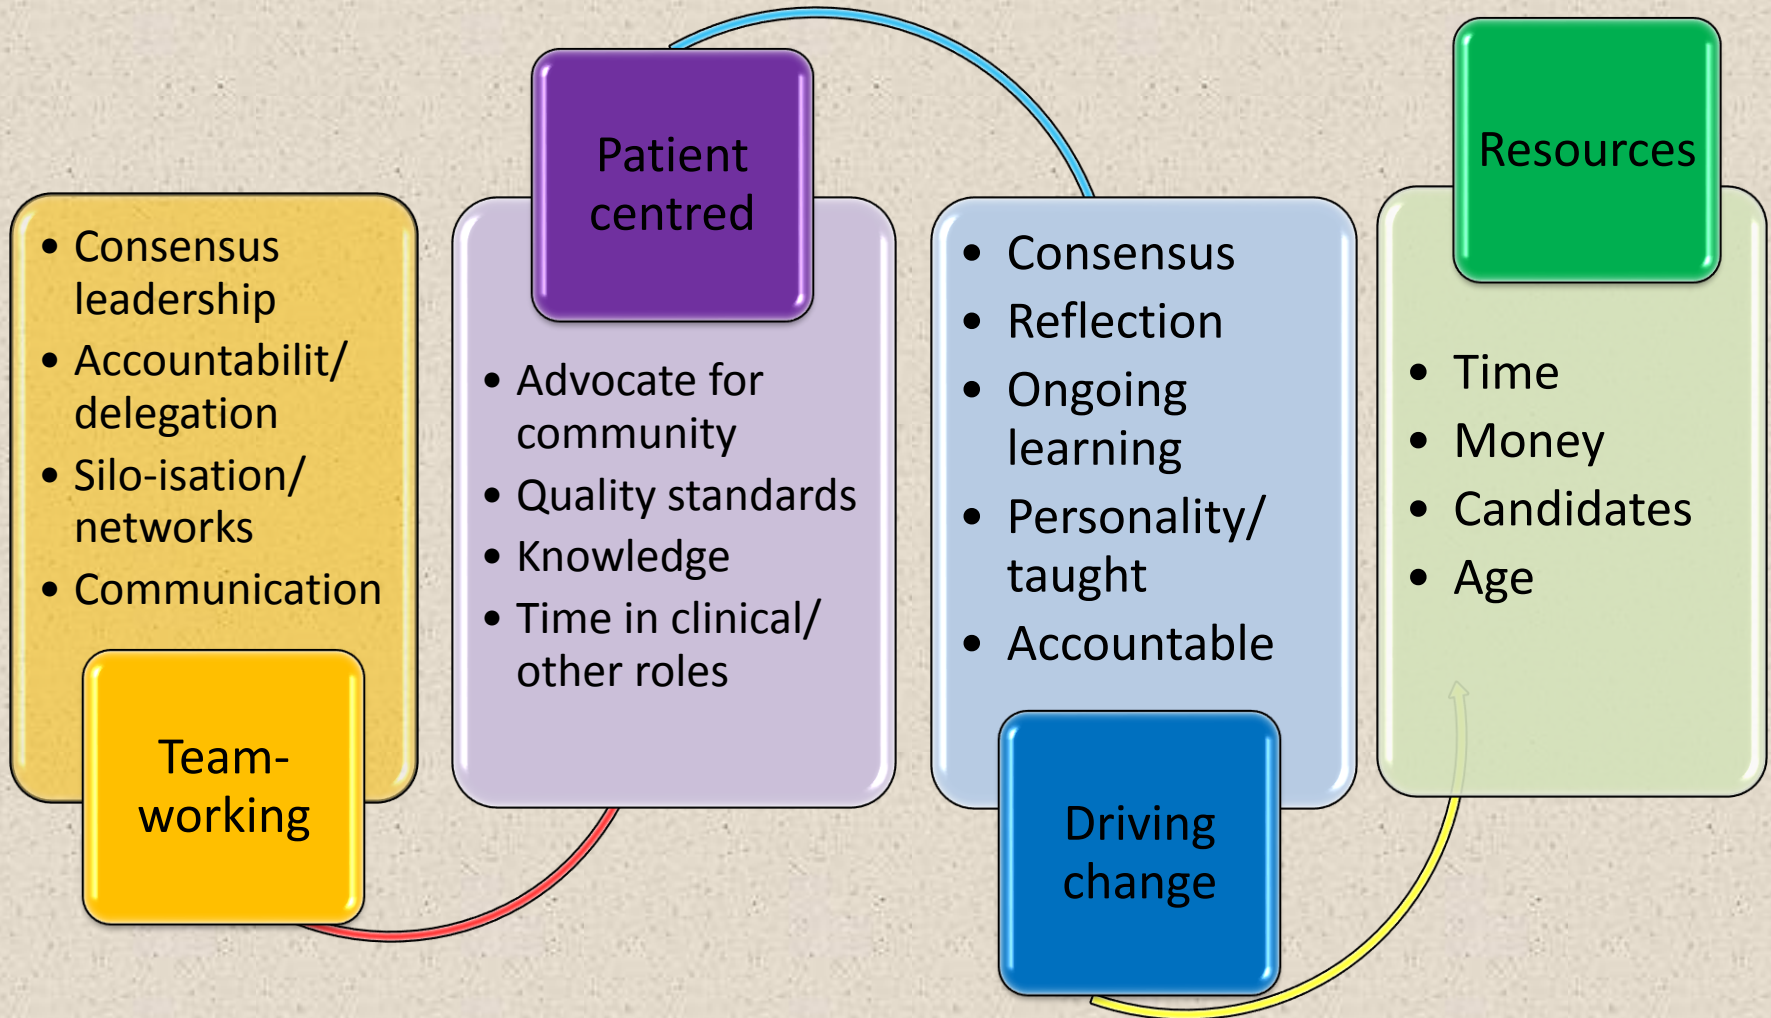

Evaluating the impact of one's decisions

Managing and resolving conflicts effectively

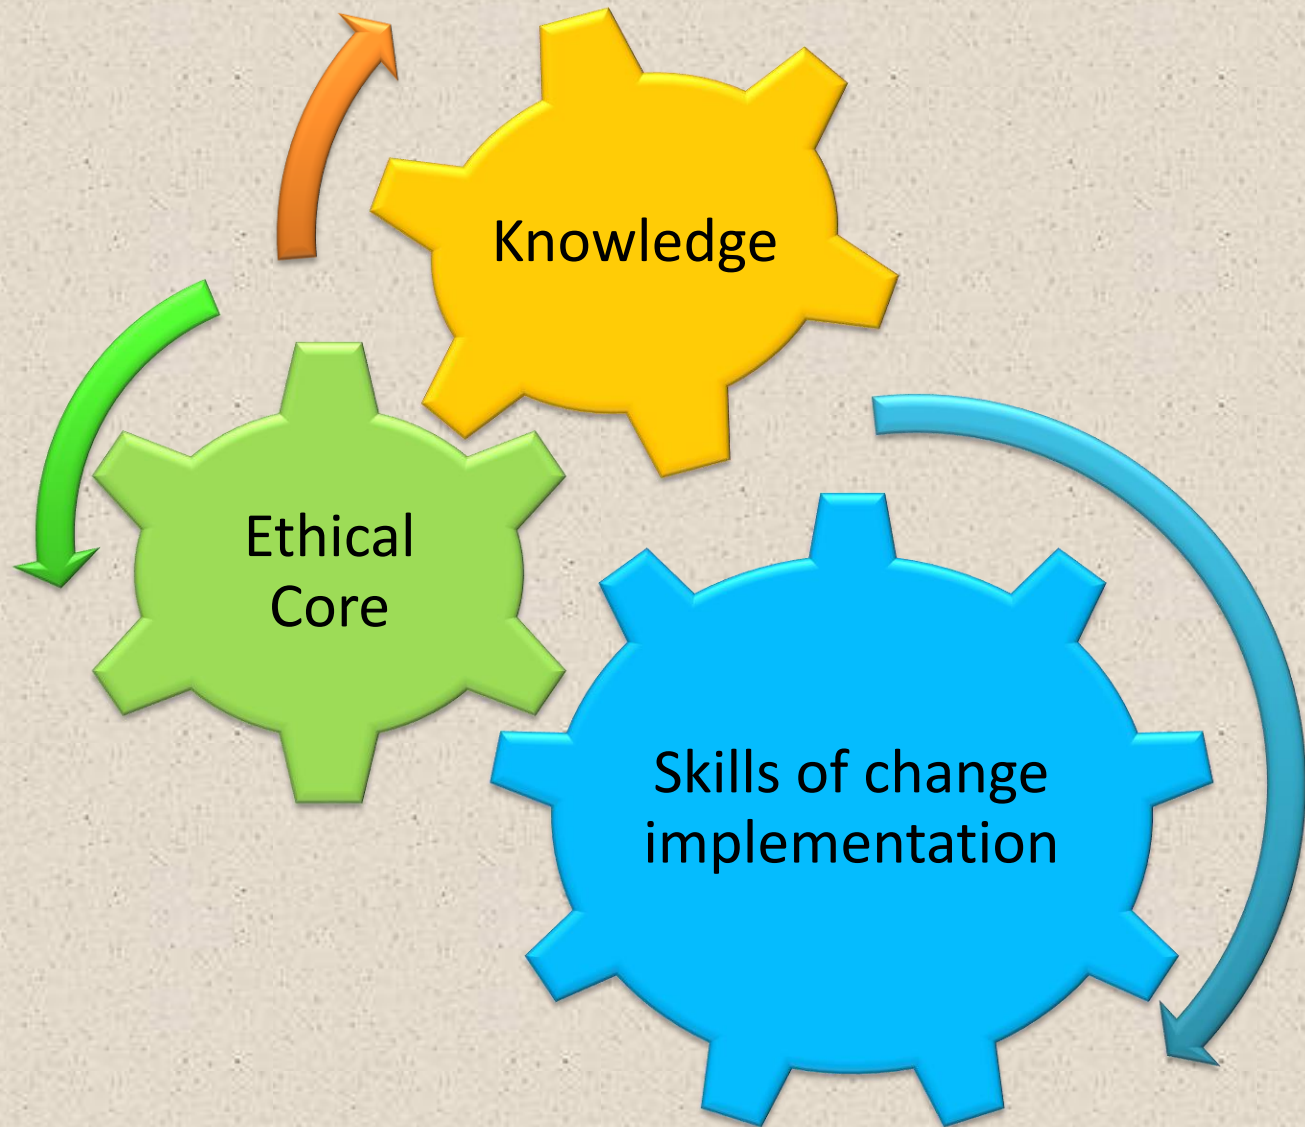

Creating alternative solutions to address problems

Coping effectively with pressure

# Results- Interviews

# Results- Triangulation

- *'I do want to deliver a good service to my patients...if you have lost that I think that you've lost your way really'*
- *'The problem rife in the healthcare (system is) that there is a dispersion of responsibility, that there actually truly isn't anybody accountable or to take ownership'*
- *'Rigorously challenge your own cherished ideas and your own sacred cows...'*

# Summary

Future curricula  
for leadership  
education in GP

Looking forward  
and reflecting  
back

Compare  
leadership  
education in GP  
to other  
healthcare  
courses/ UK  
experience

THANK  
YOU
