

Invitation to a seminar

How to teach effectively in English in a multicultural and multilingual classroom.

Register
by June 5th, 2022

Join us for good-practice demonstrations from Poland and Hungary on simultaneously considering language, culture and content in today's medical classroom.

The Content and Language Integrated Learning (CLIL) approach in education in medical and healthcare sciences was central to our CLILMED Erasmus+ project.

In this seminar we share the CLILMED results and experiences: the speakers will show how they prepare their students to become qualified doctors.

When

June 7, 2022
Tuesday
13:00 - 14:30 Irish time
(14:00 - 15:30 Central European Time)
